

Prep School Co-Curricular and Enrichment Programme 2024-25

Welcome

At Lingfield Prep School we believe that what goes on outside the classroom is equally as important as the work that goes on within it to provide a well-rounded educational experience for our children.

Our co-curricular and enrichment programme is rich, stimulating and rewarding, designed to complement our curriculum by harnessing our pupils' natural curiosity, encouraging them to try new experiences, building their skills and developing their talents. Our programme includes a huge variety of clubs and activities, over 65 in total. Whether your child is sporty, creative, musical, academic, or wants a chance to relax and have fun, there is something for everyone.

Throughout the whole school, excellent achievement can be seen in the pupils' individual interests through their participation in an extensive extra-curricular programme. ISI Report

Our aim is that when our pupils move up to Senior School, they leave us with bundles of confidence, a genuine taste for adventure and the desire to expand their horizons. Equally important, that they take with them wonderful memories of the fun, rich and rewarding experiences they have shared with their friends.
