

First Aid Policy

Ref: **LP-PW-014**

Version: **9.4**

Date: **23rd September 2019**

Document Owner: **Jacky Shackel (Head of Prep School)**

Description: This policy outlines the School's approach to first aid provision.

OUR SCHOOL AIMS

- ❖ *To foster intellectual curiosity and a love of learning.*
- ❖ *To achieve high academic standards in a supportive but disciplined atmosphere.*
- ❖ *To equip pupils with the skills and knowledge to meet the challenges of our rapidly changing world.*
- ❖ *To instill an enthusiasm in interests and opportunities beyond the classroom.*
- ❖ *To support pupils' development of a sense of justice and an awareness of their rights and responsibilities as global citizens.*

1.0 INTRODUCTION

This policy outlines the School's (incorporating Lingfield College, Lingfield College Prep, Lingfield College Nursery, Lingfield College Sixth Form) responsibility to provide adequate, timely and appropriate first aid to pupils, staff, parents and visitors and the procedures in place to meet that responsibility.

2.0 AIMS

- To identify the first aid needs of the School in line with the DfE document 'Guidance on First Aid for Schools' available at the link
https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/306370/guidance_on_first_aid_for_schools.pdf
- To ensure that at least one qualified first aider is available at all times while children are on school premises, and also off the premises whilst on school visits.
- To ensure the timely and competent administration of first aid and the effective implementation of the first aid policy.

3.0 OBJECTIVES

- To appoint the appropriate number of suitably trained people as First Aiders to meet the needs of the School.
- To ensure relevant training is planned for and ensure monitoring of training needs.
- To provide sufficient and appropriate resources and facilities.
- To inform staff and parents of the School's First Aid arrangements.
- To keep accident records and to report to the HSE as required under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations.

4.0 RESPONSIBILITIES

It is the delegated responsibility of the School's Health & Safety Manager along with the Head of Prep School and Deputy Head (Pastoral) in Lingfield College to ensure that the School's policy and procedures are implemented and monitored.

5.0 PROVISION

- 5.1 In view of the split site the School will aim to have at least one suitably qualified first aider on each site to ensure that there is always one available in case of absence. They are available from 8.00am until 6pm Monday to Thursday and 8.00am to 5.30pm on Fridays during term time in Lingfield College and in Lingfield College Prep from 7.30am until 6.30pm for 50 weeks per year.
- 5.2 The Prep School first aiders are supported by a number of 'Emergency Life Support'-trained, 'First Aid at Work' - trained and 'Paediatric First Aid' - trained staff. In addition staff in the maintenance team and IT Department are trained in either 'Emergency First Aid at Work' or First Aid at Work to cover staff during holiday periods

6.0 TRAINING

- 6.1 Lists of all staff trained in Lingfield College and Lingfield College Prep are updated regularly and saved on the school server in both Senior and Prep school as well as on board in staffroom and in the school office.
- 6.2 Laminated lists of trained First Aiders are available around School in key areas.
- 6.3 In Lingfield College, the College supplements the basic first aid cover by training other staff in vulnerable areas, such as PE and Science. In the Prep School, training is arranged for staff appropriate to their departments, particularly in the Foundation Stage, where staff undertake paediatric first aid training. The majority of teaching assistants will have completed emergency first aid training every three years.
- 6.4 Updates of training will be given to the above every three years or when necessary.
- 6.5 A COSHH (Control of Substances Hazardous to Health) register is held in school and available through the Health and Safety Officer.

7.0 PROCEDURES

7.1 **Teachers** and other staff are expected to do all they can to secure the welfare of the pupils.

7.2 The First Aider will:

- Give immediate help to casualties with common injuries or illnesses and those arising from specific hazards at School.
- Ensure that an ambulance or other professional medical help is summoned when appropriate.
- **In Foundation Stage** - there will be a minimum of two members of staff trained in Early Years First Aid (paediatric) to ensure that there is always one available in case of absence.

7.3 Risk Assessment

Risk assessment reviews will be carried out at least annually, and when circumstances alter, by the Health and Safety Officer and department heads in Lingfield College. Risk assessments will also be carried out for each individual trip and off-site activity. Recommendations on measures needed to prevent or control identified risks are forwarded to the Headmaster and Deputy Head (Pastoral) in Lingfield College and Head of Prep School.

8.0 RE-ASSESSMENT OF FIRST AID PROVISION

As part of the Schools' annual monitoring and evaluation cycle:

- The Deputy Head (Pastoral) in Lingfield College and Head of Prep School, in conjunction with the Health and Safety Officer, review the Schools' first aid needs following any changes to legislation, staff, building/site, activities, off-site facilities, introduction of new equipment, etc.
- While they are under no obligation to be first aiders, each member of staff who is a first aider should ensure that their training is kept updated, and should include refresher courses (at the expense of the School), whilst keeping the Facilities Assistant informed of the situation. All the registered first aiders will be prompted when a training renewal is required.
- In Lingfield College and Lingfield College Prep, the Facilities Assistant is responsible for ensuring that the First Aid Training register is up to date and for booking the relevant training sessions.
- The School Office Assistant/Officer Manager ensures that the contents of the first aid boxes are checked and restocked on a termly basis.

9.0 PROVIDING INFORMATION

9.1 The Deputy Head (Pastoral) in Lingfield College and Head of Prep School will ensure that staff are informed about the Schools' first aid arrangements.

9.2 The School Secretaries/Office Manager will:

- Maintain a first aid notice board in the staff room.
- Give all staff information on the location of equipment, facilities and first aid personnel.
- Regularly update the noticeboard in the staff room to include information and photographs of specific children who may require emergency treatment with adrenaline injectors or who are at risk of anaphylactic shock due to allergies.
- Display notices in prominent locations such as School Office and staff room to indicate where the first aid boxes are located and who the First Aiders are.

10.0 FIRST AID MATERIALS, EQUIPMENT AND FACILITIES

The Deputy Head (Pastoral) in Lingfield College and Head of Prep School must ensure that the appropriate number of first aid containers according to the risk assessment of the site are available. This will be done in accordance with HSE L74 guidelines on recommended and mandatory contents.

- All first aid containers will be clearly marked.
- Each school minibus carries a first aid container, checked regularly and restocked by a First Aider in Lingfield College Office or Lingfield Prep. If staff use items from the first aid box they must ensure that the box is replenished as soon as possible.
- PE staff will ensure that stocked first aid containers are taken to every off-site fixture. Mobile first aid kits are available for this purpose, along with the containers held in the school minibuses.
- There is also a First Aid rucksack in the Prep School to be taken on Educational Visits.
- Spare stock is kept in the School Office.
- COSHH (Control of Substances Hazardous to Health Regulations 2002) risk assessments will be carried out on all hazardous substances used in School, and any relevant information made available to First Aiders. A central register of the substances will be created and passed to the emergency services as necessary.
- In the Prep School there are first aid bags taken out to each playground at every playtime. Within these bags there are carbon copy books for recording minor injuries and copies will be given to the child to show their teacher and parent.
- In the Prep School when a child bumps their head, we will monitor them by giving them a yellow lanyard to wear with the time of the bump and head bump signs to look for typed on the back.

11.0 ACCOMMODATION

- 11.1 In the Prep School pupils go to the office and there is a Medical Room attached for them to lie down if necessary. There is also a washbasin and a lavatory en-suite.
- 11.2 In the College there is a dedicated medical room with a washbasin, en-suite lavatory and two beds.

12.0 HYGIENE/INFECTION CONTROL

- 12.1 Basic hygiene procedures will be followed by staff. Single-use disposable gloves (available in the Prep and College Medical Rooms) will be worn when treatment involves blood or other body fluids; hand-washing facilities are available.
- 12.2 Care should be taken when disposing of dressings or equipment. Yellow bins are provided in the medical rooms for clinical waste and are collected by an external waste company. Pedal bins are used for other waste. Bags for disposal are kept in both medical rooms.
- 12.3 Illness and Medication

Whilst children are always treated sympathetically when feeling ill, parents will be advised that School staff are unable to look after those children who have been brought to School when they are unwell. Similarly, any child on medication should normally be at home, particularly if there is a risk of infection to others. In specific cases, in accordance with our Medical Conditions Policy, where it has been agreed by the Head of Prep School or Office Manager in advance, medication may be given in School by the School Secretary/Office Manager in the School Office. A Parental Agreement for School to Administer Medicine Form must be completed (see Appendix B and C). In the College,

pupils requiring short term medication must bring their medication to the School Office where they are encouraged to administer their own medicines under adult supervision.

12.4 Medical Form

In the College the parents of every pupil receive an Individual Healthcare Plan Form each year to be filled in (see Appendix A). In the Prep School, the parents of every new pupil receive a medical form with their welcome pack to be filled in and returned at the beginning of the pupil's first term, and then periodically throughout their time at the School. Records are then collated and relevant information extracted (i.e. asthmatics, special diets, allergies) and added to ISAMS, the school information management system. In the event of sudden changes it is the responsibility of the parents to inform the School accordingly. College parents are asked to tick a box to confirm that the School can administer paracetamol.

13.0 MEDICATION IN SCHOOL

- 13.1 In the event of an emergency, medicine will be administered for potentially life threatening conditions for example, inhalers for asthma and adrenaline injectors for anaphylactic shock (see Medical Conditions Policy and appendices for asthma, anaphylaxis, diabetes and epilepsy).
- 13.2 Procedures are in place for pupils taking long term medication in the Prep School. Please refer to the Prep School Medical Conditions Policy.
- 13.3 For short term conditions in the Prep School, medication is taken to the school office by parents where a medication form is completed with the Office Manager. The child visits the office to obtain their medication which is recorded and taken under adult supervision. This also applies to EYFS.
- 13.4 Medication will not otherwise be administered without prior parental consent. No child shall be given aspirin or ibuprofen unless prescribed by a doctor.
- 13.5 When short term medication needs to be taken in School, the following procedure should be followed:
- The parent should take the medicine to the office with signed permission for the School Secretary/Office Manager to administer.
 - The medicine should be marked with the following (usually by the pharmacist): child's name, dosage, instructions for administration, cautionary advice and expiry date.
 - The School will supervise self-administration of medicine by pupils and/or administer medicines as requested. A log will be kept detailing each occasion.
 - Medication will be taken in accordance with prescription/pharmacy directions.
- 13.6 When medication is required on a long-term basis, for example if the pupil is affected by a medical condition, refer to our Medical Conditions Policy which includes specific anaphylaxis, asthma, diabetes and epilepsy appendices.
- 13.7 It is the Parents' responsibility to ensure that all medication held in School is in date. Parents are advised to take medication home either at the end of treatment time or at the end of each term to check the expiry dates and renew any medications that have expired. The office keeps a record of medication stored and records when a dose has been administered.
- 13.8 There is a list of all children with medical conditions available in the office and on iSAMS and copies are circulated to staff. The list is regularly updated. In the medical room cupboards there is a current list of long-term medicines for particular children.

14.0 ILLNESS AT SCHOOL

14.1 If a child is taken ill at School the following procedures will be followed:

- The child will be listened to and observed for specific symptoms.
- If in a lesson, the child will be sent to the School Office if it is thought they are too unwell to stay in the classroom (the teacher should use discretion in evaluating necessity). Otherwise the child can take themselves to the office during break times.
- The child will be assessed by a Class Teacher and a First Aider (Prep School) or by a First Aider (College).
- Details of the illness will be logged along with the time and date and action taken.

14.2 The parents will be contacted if it is deemed necessary. In the Prep School the class teacher will first be informed if a child is to be sent home.

- If parents or second contact are unavailable the child should be made as comfortable as possible in School.
- If a child is physically sick, the containers that may be used are located in the medical area of the office (Prep School) or in the Medical Room (College).

14.3 If a child is physically sick in the classroom the teacher will seek help. The Maintenance Office will be contacted straight away and help may be sought from a colleague to cover children whilst the incident is dealt with. In Prep School, if a teaching assistant is available they will liaise with the maintenance department whilst the teacher deals with the class.

15.0 INJURIES AT SCHOOL

15.1 If a child is injured at School and requires first aid, the following procedures will be carried out:

- All accidents will be dealt with as they occur.
- The situation will always be dealt with in a calm and sympathetic manner when accidents occur.
- If the accident is anything but minor, a qualified First Aider will be consulted.
- All accidents other than very minor (e.g. slight graze) should be logged via the Ill-health/Incident / Accident reporting form in accordance with the Performance Standard for Accidents, First Aid and Work Related Ill-Health [NDPS003].
- Nobody should make any attempt to lift up a child who has fallen down, unless a moving and handling plan is in place and staff have been trained. If the child cannot raise themselves then an ambulance will be called.
- If it is judged that the injury is so serious that immediate hospital treatment is necessary then an ambulance will be called to the School or the child taken to hospital and the parents advised of this fact. In these circumstances a member of School staff or person nominated by parents will always accompany and remain with the child until the parent arrives.
- Any accident which is serious or requires a visit to a hospital/doctors or in an ambulance will be reported to the Deputy Head (Pastoral) in College or Head of Prep School as well as the Health and Safety Manager/Officer by the School Secretary/Office Manager.

15.2 Head Bumps in Prep School

- In the case of a bumped head, these procedures will be followed:

If someone has seen the incident when a head bump has occurred:

- They will make a decision as to whether it is minor or major.
- If it is deemed to be minor then the child will be taken to the office where he/she will be looked at, a head bump note filled out and possibly an ice pack will be applied.
- If it is deemed to be more major and yet the child is walking about then the child will be taken to the office by the adult on duty who saw the incident and the child's parents will be phoned, a full report of the incident must be written up and possibly an ambulance called, depending on severity. The child will be kept in the school medical room until either the parent or an ambulance arrives.
- If a child bumps their head and is on the floor or unconscious then a first aider must be called and the child must not be moved until first aid checks have been carried out.
- If a head bump is reported, but no adult has seen it:
 - If after questioning and first aid checks there is some concern or there is obvious evidence of a bump, then the head bump will be treated as more serious and the parent phoned. The parent will be asked to make a decision as to what they would like us to do next based on the information given.
- In the Prep School:
 - The child will be given a yellow lanyard to wear (Mr Bump) with information on the back about signs to be vigilant for. On the front the time of the incident will be written in marker pen.
 - If the child then goes back to class, each teacher should be vigilant to the signs on the back of the card and this should be checked several times per hour.
 - If the child starts to show more concerning symptoms then they must be accompanied to the office by an adult immediately and an ambulance/parent called.
- In the Senior School the relevant teacher will be informed and will remain vigilant for signs of concussion. If the child starts to show more concerning symptoms then they must be accompanied to the office by an adult immediately and an ambulance/parent called

15.3 Senior School

- First Aid equipment is available from the Office and from First Aid kits kept at various prominent points around the School, such as the School Office, Library, PE Department, each Science Laboratory and the Sixth Form block.
- A wheelchair is kept in the medical room.
- Ice packs are kept in the medical room and the PE Department.
- In the case of all accidents which necessitate absence from class, the parent will be informed if the first aider considers it to be necessary. In the case of head injuries, except in very minor cases (in which case we will inform the parent and monitor the situation), the parent will be asked to collect the child from the School Office.
- A Medical Book in the Senior School Office is used to record the time that any student is admitted to the medical room and the times of subsequent checks, with notes on any significant changes in the condition of the student. This information will be transferred to the official log on the computer at the end of each day

15.4 Lingfield College Prep

- First Aid packs are kept in the office, at various points around the school, including the Dining Room, PE Department, Library, Drama Room and Science Room and on each playground. A map showing locations is in the staffroom on the medical notice board.
- There is a first aid box accessible in the Nursery at all times with appropriate content for use with children.
- Ice packs are kept in the Office, Nursery kitchen, PE office and first aid boxes.
- A wheelchair is kept in the School, near the Head of Prep School's office. This can be easily accessed when needed.
- In the Prep School, during break times staff members are on duty in the playground. They will make the initial assessment and treat there and then and then record the treatment in the first aid book which is in the First Aid bags on the playground.
- Accidents, other than very minor (e.g. slight graze), should be logged via the Ill Health / Incident / Accident reporting form, found in the Prep School Office, in accordance with the Performance Standard for Accidents, First Aid and Work Related Ill-Health [NDPS003].
- The class teacher/First Aider must always inform the child's parent of any head injury, usually by way of a 'Head Injury' form (if minor), but if more serious, by phone. If the child attends an after-school club, an adult should be instructed to inform the adult in charge of the club that they have a head injury note.
- If a child is not being collected by a parent and there is concern – the parent should be contacted by phone.
- The child's class teacher should always be informed of any accident.

15.5 Reporting Accidents

Statutory requirements – Under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 (RIDDOR) the School undertakes to maintain any records of any injury, disease or dangerous occurrence reportable to the HSE. The Health and Safety Manager is responsible for reporting such details to the HSE.

16.0 RECORD KEEPING

- 16.1 Accident records are kept for a minimum of seven years (see HSE The Accident Book B510). All such records will be kept in accordance with the Data Protection Act 1998.
- 16.2 The Deputy Head (Pastoral) in the College and Head of Prep School will ensure that a record is kept of any first aid treatment given by first aiders by the completion of the Ill-Health / Incident / Accident reporting form in accordance with the Performance Standard for Accidents, First Aid and Work Related Ill-Health [NDPS003]. Details from the forms will be entered onto the School's accident database by the School Secretary/Office Manager who will collate the statistics and pass them to the Health and Safety Manager regularly for review and action. The H&S Manager will be responsible for investigating any significant incidents and the results documented and passed to the Headmaster and Governing Body.
- 16.3 In the EYFS a record of injuries is kept separately in the setting. The School will inform parents of any accident or injury (that they are aware of) sustained by a child on the same day, or as soon as reasonably practicable, and any first aid treatment given.

17.0 SUN CREAM

Staff may not apply sun cream to pupils. Parents are advised to apply a high factor to their child/children before School. Many products are available that will last all day.

18.0 HEAD LICE AND THREADWORMS

The School will advise parents of any outbreak in School of head lice. Where it is reported that a child has threadworms, a letter will be sent to all parents in that year group or associated year group which gives advice on how to treat and how to prevent. Hygiene is discussed with the class and maintenance.

19.0 SPLINTERS AND STINGS

Only qualified First Aiders are permitted to remove splinters or stings.

20.0 SCHOOL TRIPS/VISITS

- 20.1 A staff member in the group will be appointed to be in charge of the first aid arrangements and ideally will have a good working knowledge of first aid. An adequate first aid box must be taken, along with parental authorisations and any other medication as authorised by parents.
- 20.2 For adventurous activities, visits abroad or residential visits it is sensible if at least one of the adults is a fully-trained first aider.
- 20.3 Supervising adults should know how to contact the emergency services and they should know the location of the nearest hospital.
- 20.4 In the event of any accident, the incident will be dealt with in accordance with this policy. Any travel sickness medication will require parental consent.
- 20.5 In exceptional circumstances a very small number of students go out from the Senior School with one member of staff, and that member of staff may not have first aid training. The staff member will be given a first aid kit and a list of any pupils with medical issues. The Head of Estates and Facilities is made aware of this arrangement through the trip process Final Approval form before signing off the trip through the Trip Process Final Approval Form.

21.0 ABSENCE DUE TO ILLNESS

- 21.1 In the case of persistent absence through illness, the Tutor, Head of Year or Deputy Head (Pastoral) may request evidence such as:
 - A Doctor's note
 - A copy of a medical appointment card / letter
 - A copy of the medication label showing the child's name and the date prescribed
 - A Medical Prescription
- 21.2 For further procedures please see the School's Attendance and Registers Policy as well as the CME Policy.

22.0 VOMITING/DIARRHOEA

- 22.1 Any pupil suffering with vomiting or diarrhoea must remain absent from School for 48 hours from the last bout of illness.
- 22.2 See Attendance and Registers Policy.

23.0 ROLES, RESPONSIBILITY AND REVIEW

- 23.1 The Headmaster, in conjunction with the Deputy Head (Pastoral) in the College and Head of Prep School, is responsible for the implementation and monitoring of the policy.
- 23.2 This policy will be reviewed every year.

24.0 OTHER RELEVANT POLICIES AND DOCUMENTS:

- Attendance and Registers Policy
- Medical Conditions Policy, which includes Anaphylaxis, Diabetes, Asthma and Epilepsy.
- Health & Safety Policy
- Children Missing in Education (CME) Policy

25.0 USEFUL CONTACTS

APPENDIX A

PARENTAL AGREEMENT FOR LINGFIELD COLLEGE STAFF TO ADMINISTER MEDICINE

Medication cannot be administered without the completion of this form.

Name of child				
Date of birth				
Form				
Medical condition or illness				
Medicine				
Name/type of medicine <i>(as described on the container)</i>				
Prescribed over the counter	Yes / No <i>please circle</i>			
Expiry date				
Dosage and method				
Timings				
Special precautions/other instructions				
Are there any side effects that the School needs to know about?				
Self-administration	Yes / No <i>please circle</i>			
Medication should be refrigerated	Yes / No <i>please circle</i>			
Procedures to take in an emergency				
NB: Medicines must be in the original container as dispensed by the pharmacy				
Contact Details				
Name				

Daytime telephone no.	
Relationship to child	
Address	
I understand that I must deliver the medicine personally to	Mrs Nolan (School Office)

The information detailed above is, to the best of my knowledge, accurate at the time of writing and I give consent to School staff administering medicine in accordance with the school policy.

I will inform the School immediately, in writing, if there is any change in dosage or frequency of the medication or if the medicine is stopped.

HEALTH QUESTIONNAIRE

Has your child ever suffered from any of the following conditions? *(tick all that apply)*

- Diabetes
- Chest Pains
- Family History of Heart Disease
- Muscular/Joint problems
- Asthma or other Respiratory Problems
- Migraine/Dizziness
- Recent Surgeries
- Any sustained injuries/illnesses
- Epilepsy
- Difficulty with any form of physical exercise
- Currently taking any medication
- Severe allergic reaction
- Other

If you ticked any of the above, please give details of the condition below:

Describe medical needs and give details of child's symptoms, triggers, signs, treatments, facilities, equipment or devices, environmental issues etc. Please add extra information on a separate sheet if necessary

Name of medication, dose, method of administration, when to be taken, side effects, contra-indications, administered by/self-administered with/without supervision:

Daily care requirements:

Specific support for the pupil's educational, social and emotional needs (*please outline*)

Describe what constitutes an emergency, and the action to take if this occurs

I give consent for Lingfield College staff to administer the following medication in appropriate doses:

Paracetamol

- Prior to administration, a check will always be carried out into the last recorded dose
- Paracetamol cannot be administered if taken within the last **4 hours**.
- Parents will be notified via email that paracetamol has been administered

Parent/Guardian Signature Date

APPENDIX C

**PARENTAL AGREEMENT FOR LINGFIELD COLLEGE PREP STAFF TO ADMINISTER
MEDICINE IN PREP SCHOOL**

Medication cannot be administered without the completion of this form.

Name of child				
Date of birth				
Class				
Medical condition or illness				
Medicine (NB: Medicines must be in the original container as dispensed by the pharmacy) Where possible the need for medicines to be administered at School should be avoided. Parents are therefore requested to try and arrange the timings of doses accordingly. It is not School's responsibility to remember to administer medication.				
Name/type of medicine (as described on the container)				
Doctor Prescribed	Yes / No <i>please circle</i>			
Expiry date				
Dosage/method/timings				
Completion Date (where relevant)				
Self-administration	Yes / No <i>please circle</i>			
Medication should be refrigerated	Yes / No <i>please circle</i>			
Special precautions/side effects or other instructions the school should be aware of				
Procedures to take in an emergency				
Contact Details & Consent				
Name				
Daytime telephone no.				
Relationship to child				
I understand that I must deliver the medicine personally to the Prep School Office.				
The above information is, to the best of my knowledge, accurate at the time of writing and I give consent to school staff administering medicine in accordance with the School policy. I will inform the School immediately, in writing, if there is any change in dosage or frequency of the medication or if the medicine is stopped (long term medication).
